SUMMER TRAINING PROJECT REPORT

ON

STUDENT ATTENDANCE MANAGEMENT SYSTEM

Submitted in Partial Fulfillment of the Requirements

for Summer Training

Submitted By

CHANDAN VERMA

Bachelor of Computer Applications (BCA)

AWADHUT BHAGWAN RAM PG COLLEGE

Academic Session: 2025-26

Under the Guidance of

Mr. Mukul Srivastava

HINDALCO INDUSTRIES LIMITED

CERTIFICATE

This is to certify that Mr. Chandan Verma, a student of Bachelor of Computer Applications (BCA) from Awadhut Bhagwan Ram PG College, has successfully completed his Summer Training Project on "Student Attendance Management System" at Hindalco Industries Limited under my guidance.

During the training period, he demonstrated sincerity, dedication, and a keen interest in learning. The project work carried out by him is satisfactory and fulfills the requirements of the training program.

Guide

Mr. Mukul Srivastava

Hindalco Industries Limited

ACKNOWLEDGEMENT

I would like to express my sincere gratitude to Hindalco Industries Limited for providing me with the opportunity to undertake my Summer Training Project.

I am especially thankful to my guide, Mr. Mukul Srivastava, for his valuable guidance, support, and encouragement throughout the project. His suggestions and motivation helped me successfully complete this project.

I also extend my gratitude to the faculty members of Awadhut Bhagwan Ram PG College for their support and encouragement during the training period.

Lastly, I would like to thank everyone who directly or indirectly contributed to the successful completion of this project.

Chandan Verma

BCA Student

INTRODUCTION

The Student Attendance Management System is a web-based application developed to manage student attendance records efficiently. The system allows users to record attendance, maintain attendance data, and generate attendance reports in a simple and organized manner.

The project has been developed using HTML, CSS, JavaScript, PHP, and SQL. It provides a user-friendly interface for managing attendance records and demonstrates the practical implementation of web development concepts.

OBJECTIVES OF THE PROJECT

- To maintain student attendance records.
- To reduce manual attendance management.
- To provide a simple and user-friendly interface.
- To improve data organization and accessibility.
- To generate attendance reports efficiently.

SOFTWARE REQUIREMENTS

Operating System : Windows 10/11

Frontend : HTML, CSS, JavaScript

Backend : PHP

Database : SQL

Code Editor : Visual Studio Code

Version Control : Git & GitHub

Web Browser : Google Chrome

PROJECT DESCRIPTION

The Student Attendance Management System consists of a Login Page, Attendance Management Page, and Attendance Report Page.

The Login Page allows users to access the system. The Attendance Management Page enables users to mark attendance for students. The Attendance Report Page displays attendance records in a tabular format.

The system is designed to simplify attendance management and improve record keeping.

CONCLUSION

The Student Attendance Management System successfully demonstrates the use of web technologies for attendance management. The project provides an efficient way to manage attendance records and generate reports. It also helped in understanding practical concepts of web development, database management, and version control using GitHub.
